
Description:	Mixture of organic and inorganic deliming agents.
Aspect:	Clear, colorless to yellowish liquid.
Acidity index:	480 - 650 mg KOH/g
Density:	1,35 – 1,38 g/cm ³
Application:	Deliming.
Properties:	<p>UNIESP® D-1806 is a special deliming agent which can be combined with other deliming agents to complete lime solubility and excellent neutralization.</p> <p>UNIESP® D-1806 assists to removal of the chemically fixed lime from the stock. This results in a clean and even deliming without acid swelling for light and clean pelts with improved tightness of leather.</p>
Use guideline:	<p>Due to its acid characteristics, we recommend to dilute 1:3 in water the UNIESP® D-1806 and introduce into the drum thru the funnel.</p> <p>Combined:</p> <ul style="list-style-type: none">🔹 1,5 – 2,0% ammonium sulfate and 1,0 – 2,0% UNIESP® D-1806
Storage:	We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.
	
Package:	30 Kg plastic drum or 1.200 Kg IBC.
