
Description:	Phenol condensation product.
Aspect:	Beige powder.
Concentration:	Min. 92%
pH (sol. 10%):	3,0 – 5,0
Charge:	Anionic.
Application:	Pre-tanning, vegetable and white leather tanning and chrome retanning.
Properties:	UNISYNT® FL PÓ is a special synthetic retanning agent for white, full, light resistant leathers. Can be used as a universal syntan, in chrome tanned leathers.

In the white tanning process, the **UNISYNT® FL PÓ** can be used as a unique tanning agent, and to vegetable tanning we recommend to apply in the first dose of tannin.

Use guideline:	The dose varies according to the desired effect: <ul style="list-style-type: none">🔹 Pre-tanning: 1,5 – 3% over the limed weight;🔹 Vegetal tanning: 1 – 2,5% over the limed weight;🔹 Chrome retanning: 3 – 9% over the shaved weight;🔹 White retanning: 2 – 5% over the shaved weight
-----------------------	--

Storage:	We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.
-----------------	--

Package:	25 Kg plastic bags on 1.000 Kg pallets.
