

Description:	Glutamyl endopeptidases-based enzyme.
Appearance:	Brown liquid.
Enzyme Activity:	1200 – 1440/g GSPU
Biodegradability:	100%
pH (sol. 10%):	8,0 – 10,0
Solubility:	Totally soluble in water.
Application:	Rapid removal of hair for any kind of hides or skins.
Properties:	<p>UNIZIME® SKU improves the complete removal of the hair, including the root. This hair release occurs very fast, avoiding any damage to the pelts grain. Advantages of this process are:</p> <ul style="list-style-type: none"> Low sulfide contents; Low DBQ/DQO, less mud and less nitrogen in the water waste; Excellent hair root removal; Cleaner, smoother and well opened surface.
Use guideline:	<p>The UNIZIME® SKU acts most efficiently in temperatures between 27 – 28°C.</p> <p>The ideal pH oscillates around 8,5 – 9,5. As soon as the pH reaches 10,5 the enzymatic activity will be completely interrupted.</p> <p>The recommended dose is 0,03% over the substrate weight.</p>
Storage:	We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.
	
Package:	25 Kg in plastic drum.
