

Description:	Blend of nonionic & anionic surfactants with synergetic effect.
Appearance:	Yellowish viscous liquid.
Concentration:	25,5 – 30,0%
pH (sol. 10%):	6,5 – 8,5
Charge:	Anionic
Application:	Beamhouse operations, degreasing and wet-blue washing.
Properties:	UP CLEAR® NY has a strong rewetting, degreasing and emulsifying effect over the natural fat of the fresh, salted and dried hides. It also works fine over limed pelts, wet blue and crust leather as a powerful surfactant.

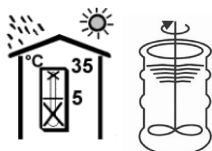

Due to its composition, **UP CLEAR® NY** is very versatile and penetrates deeply into the fibers, accelerating the degreasing and rewetting process.

Use guideline: We suggest diluting the product in water, in the proportion of 1:3.

The dose of **UP CLEAR® NY** varies as the desired effect:

-  Salted pelts soaking: 0,1 - 0,3% over the salted weight;
-  Liming: 0,2 - 0,4% over the salted weight;
0,1 - 0,2% over the fresh weight;
-  Deliming/bate: 0,2 - 0,5% over the splitted weight;
-  Wet blue washing: 0,5 - 1,0% over the shaved weight.

Storage: We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.

Package: 25 Kg plastic drum, 180 Kg metal drums or 1.000 Kg IBC.
