

Description:	Special fatty alcohol ester with additives.
Aspect:	White paste.
Concentration:	50 – 54%
pH (sol. 10%):	6,0 – 8,5
Charge:	Anionic
Light fastness:	Excellent
Heat fastness:	Good
Salt Stability:	Unstable.
Application:	Fatliquoring and waterproofing agent for chrome tanned leathers.
Properties:	<p>UP SOFT® GFA is a fatliquor that makes an excellent water-resistant leather with soft and round hand. The firmness must be adjusted with an appropriate retanning formula. Using the UP SOFT® GFA in combination with sulphited fish oil, sulphated neatsfoot oil or lecithin emulsions will result in leathers with fullness, soft touch and good light fastness.</p> <p>UP SOFT® GFA gives a high degree of fiber lubrication, without greasiness and light weight leathers, such Napa leather.</p>
Use guideline:	<p>UP SOFT® GFA is recommended for use on all types of soft leathers, either alone or in combination with other anionic fatliquors.</p> <p>The dosage will vary according the desired article, since 4 to 15% over the shaved wet blue weight. We also recommend to open an emulsion in water before the use (1:5 – 65°C).</p>
Storage:	<p>We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.</p>
	
Package:	170 Kg metal drum.
