

Description:	Natural raw oil.
Aspect:	Yellowish viscous liquid.
Concentration:	Min. 99%
Density:	0,89 – 0,92 g/cm ³
Charge:	Non-ionic
Light fastness:	Good
Cold stability:	Stable.
Application:	In the main fatliquor.
Properties:	<p>UP SOFT® MC is a neat's-foot type oil, with synthetic additives, very recommended for fatliquoring of shoe and bags leathers.</p> <p>Because of the high lubricant power, the UP SOFT® MC provides a greasy and pleasant touch. That improves the rupture resistance of the grain (lastometer) and the high temperatures resistance.</p> <p>When mixed with cationic oils, the UP SOFT® MC forms a "mayonnaise" highly lubricant, ideal for application in the final top of the retanning/fatliquoring process. Giving to the leathers a spectacular silky touch, very appreciated in upholstery leathers or clothing.</p>
Use guideline:	<p>The dose varies according the final article.</p> <p>It can be applied combined with other fatliquors of the UP SOFT® line:</p> <ul style="list-style-type: none">  Furniture Napa: 0.5 a 1.0% over the shaved weight;  Shoe Napa: 0.5 a 1.5% over the shaved weight;  Sole leather: 0.5 a 2% over the shaved weight;  Vegetable articles: 0.5a 2% over the shaved weight.
Storage:	<p>We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.</p> <div style="text-align: center;">  </div>
Package:	170 Kg metal drums or 900 Kg IBC.
