

### High performance lecithin emulsion based fatliquor

---

|                                 |   |
|---------------------------------|---|
| <b>Description:</b>             | Lecithin and synthetic ester in emulsion, free of NPEO.   |
| <b>Aspect:</b>                  | Very viscous yellowish-brown paste.   |
| <b>Concentration:</b>           | 39,0 – 42,0%  |
| <b>pH (sol. 10%):</b>           | 6,0 – 8,5   |
| <b>Charge:</b>                  | Anionic   |
| <b>Light and heat fastness:</b> | Good  |
| <b>Acid Stability:</b>          | Excellent   |
| <b>Salt Stability:</b>          | Excellent   |
| <b>Application:</b>             | Neutralization, retanning and fatliquoring  |
| <b>Properties:</b>              | <p><b>UP SOFT® U33</b> is a fatliquor with an excellent touch, therefore it is very suitable for the production of all types of soft leather articles.</p> <p>It has a very soft handle with high inner softness, fluffy feel, nice rich lecithin surface touch and very low specific weight.</p> <p>It does not lighten shades and can be used in small amounts for shoe upper leathers without any grain looseness.</p> <p><b>UP SOFT® U33</b> is highly recommended for milled leathers.</p> |
| <b>Use guideline:</b>           | <p>Ideal quantity to be used depends on the desired effect.</p> <p><b>UP SOFT® U33</b> can be used from 2 to 20% on shaved weight or combined with other <b>UP SOFT®</b> fatliquor products.</p>  |
| <b>Storage:</b>                 | <p>We recommend keeping the product sealed in the original package, in a clean and controlled environment, avoiding extreme temperatures.</p> <div data-bbox="539 1794 743 1928" data-label="Image"></div>   |
| <b>Package:</b>                 | 190 Kg metal drums.   |
